31 JAN 1974

MEMORANDUM FOR: Records Administration Branch, DD/M&S
THROUGH: DD/S&T Records Management Officer *flm*
SUBJECT: Records Control Schedule 92-70

1. The Office of ELINT (OEL) requests approval to amend our records control schedule (92-70). The new amendment provides for a new category of records, i.e., Cable Reference Files and the associated disposition instructions. If this new category is adopted as submitted, then paragraph c, Item 3, Chronological files should be deleted from the schedule.

2. If additional information is required please contact Mr. [REDACTED]

Remarks: According to [REDACTED] these are cables similar to those of the Agency Cable Secretariat. OEL, as well as OSA & OD&E, manage their own cable secretariats which are not duplicative of each other. Cable Secretariat has a disposition instruction of 60 years retention, on microfilm, lcc at the R.C. and lcc at Cab.Sec. This 60 years was mandatory for DDO requirements. OSA has 25 years retention on microfilm with microfilm file retained either in current file or at R.C. OD&E has hard copy retired to R.C. for destruction after 15 years. OSA and OD&E disposition is based on their needs. OEL wanted to destroy theirs after (over)

only a few years but Sal insisted on the 25 years because they are relatively new. I cannot judge as yet whether these reference files will prove to be of value. He did not want them prematurely destroyed without a longer period of time to prove their value or worthlessness. The record copies of cables from each secretariat are filed in the project or other substantive files. Experience has shown me that perfection in filing records copies where they belong is not always 100% foolproof. I'm inclined to go along with Sal on the 25 years since the schedules will be reviewed periodically in the future and this item will be reviewed again and again with each review.
